Here is a great opportunity to own a beautiful lot just steps from the ocean. This lovely lot is surrounded by new and well-maintained homes. This is the place to be in Hawaiian Paradise Park (HPP). This lot and the area have such a good feeling with owners walking their dogs, riding their bikes or just strolling along the road looking at the ocean and feeling the warm ocean breezes. In the winter months you will be able to view the quite spectacular "Humpback Whales" breaching and just cruising with with their young calfs. This lot and area have so much to offer. Best yet, you can walk a short five minutes and be at the ocean park. Be careful with the wave action! Outstanding!
